## Education

**Sahyadri College of Engineering and Management, Adyar, Mangalore**  
*Bachelor of Engineering - Computer Science and Engineering*

2023 - 2025

## Experience

- **Technical Career Education Pvt. Ltd.** October 2023-November 2023  
*Student Intern*
  - Developed the frontend of a website closely resembling the **Test Yantra** platform using React.js, improving UI responsiveness and user experience during the Innoventure internship program.
  - Collaborated with the team through regular meetings to address technical challenges and enhance coordination.
- **Thaniya Technologies** February 2025-May 2025  
*Student Intern*
  - Developed a full-stack food delivery web application named **Quick Bite** using the MERN stack (MongoDB, Express.js, React.js, Node.js), focusing on intuitive user interface and seamless order flow.
  - Implemented key features such as user authentication, add to cart and order-list to enhance overall user experience.
  - Collaborated with the team during the Innoventure internship to troubleshoot backend issues and ensure smooth deployment.

## Projects

- **Quick Bite : Food Ordering web-Application**  
*Developed a comprehensive event management system to streamline event planning, registration, and execution.*
  - Developed a full-stack food delivery application **Quick Bite** to streamline restaurant browsing, food ordering, and delivery tracking.
  - Designed and implemented a responsive web-based platform allowing users to view menus, place orders, and track deliveries in real-time.
  - Built RESTful APIs for handling authentication, cart management, and order processing using Node.js and Express.js.
  - Integrated MongoDB for dynamic data storage and retrieval, with React.js handling the client-side rendering and interactivity.
  - Tools and technologies used: MongoDB, Express.js, React.js, Node.js , JavaScript, CSS, libraries, VS Code.

## Technical Skills and Interests

- **Languages:** C, C++, Java(Basic), HTML, CSS, JavaScript
- **Developer Tools:** Visual Studio Code, Jupyter Notebook, GitHub, Eclipse, Selenium IDE, Cursor AI
- **Frameworks:** AngularJS , React Native(Basic)
- **Libraries:** React.Js, Vite.Js , Next.js(Basic)
- **Databases:** MySQL, MongoDB, Cloudinary, Firebase
- **Cloud Platforms(Deployment):** Vercel , Render, Netlify , Firebase
- **Soft Skills:** Problem-solving, Team collaboration, Time management, Effective communication

## Certificates

- **Database and SQL:** Infosys | Springboard
- **Full Stack(Mern):** Thaniya Technologies
- **MERN Stack with Bootstrap Framework:** TCE
